**PETITIONING THE COURT**

To issue a warrant and to incorporate the violation contained in this petition in future proceedings with the violations previously reported to the Court on April 30, 2018 and October 3, 2018.

The probation officer believes that the offender has violated the following condition of supervision:

Violation Number      Nature of Noncompliance

7

**Special Condition #9:** You must abstain from the use of illegal controlled substances, and must submit to urinalysis and sweat patch testing, as directed by the supervising officer, but no more than six tests per month, in order to confirm continued abstinence from these substances.

**Supporting Evidence:** On or about December 24, 2018, Mr. George consumed tetrahydrocannabinol (THC), the active chemical in marijuana.

On March 26, 2018, supervised release conditions were reviewed and signed by Mr. George acknowledging his understanding of special condition number 9, which prohibits him from using a controlled substance.

**Page 2**

On December 27, 2018, Mr. George reported to the United States Probation office. A urinalysis (UA) sample was collected which yielded a presumptive positive result for THC. Mr. George admitted he consumed THC on or about December 24, 2018, and signed a drug use admission form.

The U.S. Probation Office respectfully recommends the Court issue a warrant and incorporate the violation contained in this petition in future proceedings with the violations previously reported to the Court.

I declare under penalty of perjury that the foregoing is true and correct.

Executed on: December 28, 2018
